THE PROJECT

A Private Village Above Baie Lazare

Empathia Village is a private estate of 35 villa plots on the granite hillside above Baie Lazare — one of the most celebrated bays of the Indian Ocean — on the south-west coast of Mahé, Seychelles. The estate is positioned between the Four Seasons and Kempinski resorts, around 30 minutes from the international airport with direct connections to Europe, the Middle East and Asia.

Following new Seychelles legislation that lifted the moratorium on foreign property ownership, international buyers receive full freehold title to both villa and land — transferable, inheritable and mortgageable. A Seychelles residence permit for the owner and immediate family accompanies every purchase.
